Professional Summary

Software development professional prepared for high-impact roles within technology-driven environments. Extensive background in designing and optimizing software solutions, with commitment to delivering high-quality results. Known for effective teamwork and adaptability, with key skills in coding and system architecture.

Skills

- Coding Languages: PHP, JavaScript, Dart, SQL
- Frameworks: Laravel (MVC), Codeigniter, React, Vue, Flutter, Tailwind, Bootstrap
- Testing & Debugging: Unit Test, Integration and bug fixing
- Web Technologies: HTML, CSS and frameworks (React, Vue, Tailwind)
- Operating System: Experience with Mac and Windows
- IDEs & Text Editors: Experience with VS Code, Sublime Text
- Databases: MSSQL, MYSQL
- Version Control: Git
- Cloud Platforms: Experience with Digital Ocean
- Containers: Docker for deployment
- Platforms: GIT, GIT LAB

Work History

- SOFTWARE ENGINEER II**, 06/2023 - Current
Camaya Coast, Prudential Building, 31 EDSA, Mandaluyong City (Remote)
- Develop, maintain, and enhance full-stack web applications using Laravel, React, Vue JS and MySQL
Build responsive, high-performance front-end interfaces with React and modern JavaScript practices
 - Implement server-side logic, APIs, and business workflows using Laravel (PHP)
 - Design and optimize relational databases (MySQL), including schema design, migrations, and query optimization
 - Develop and integrate RESTful APIs and third-party services
Implement secure authentication, authorization, and role-based access control
 - Integrate online payment gateways including Maya (PayMaya) and Dragonpay, handling payment processing, callbacks, and webhooks
 - Implement SMS gateway integrations using ITEXTMO and Semaphore for OTP verification, notifications, and alerts
 - Containerize applications using Docker for consistent local, staging, and production environments
 - Deploy applications on DigitalOcean cloud servers
 - Use Git for version control and collaborate with cross-functional teams
 - Write clean, maintainable, and well-documented code following industry best practices
 - Translate UI/UX designs and business requirements into high-quality, scalable code

IT PROGRAMMER, 04/2021 - 05/2023

Ropali Motorcycles, Ropali Plaza, Escriva Drive Cor. Goldloop, Ortigas

- Developed and maintained front-end interfaces using Vue.js, jQuery, and JavaScript
- Built and supported back-end systems using CodeIgniter and Laravel
- Designed and implemented RESTful APIs to support multiple web applications
- Managed and optimized databases using MySQL and Microsoft SQL Server (MSSQL)
- Deployed and maintained applications in Production and UAT environments
- Integrated third-party systems and APIs, including Acumatica ERP
- Delivered full-stack web applications, from requirements gathering to deployment
- Performed legacy code refactoring to improve performance, readability, and maintainability
- Implemented system enhancements and resolved user-reported issues in a timely manner
- Collaborated with stakeholders to continuously improve application functionality and user experience
- Recognized with 2× Malasakit Award

COMPUTER PROGRAMMER ANALYST, 10/2019 - 05/2021

R.P Alingog Development Corporation, Alingog Center, Rizal Cor, Canciller Ave, Cauayan

- Developed and maintained dynamic web applications to enhance user experience and functionality.
- Managed the deployment process for updates in production, ensuring minimal disruption to operations.
- Performed routine system maintenance and addressed bugs to enhance user experience.

Education

Isabela State University, Cauayan Campus - 18 Dacanay, Brgy. San Fermin, Cauayan City, Isabel
